Uppsala 1976

## PREFACE

At the end of the academic year 1975/76 Professor Sture Lagercrantz will retire as Professor Regius et Ordinarius of General and Comparative Ethnography in the University of Uppsala, where he has taught for more than thirty years. Most of his own work and that of his many students has been concerned with African problems. Being a former student of his, it is important for me personally to express my own gratitude to Dr. Lagercrantz for many years of interesting co-operation. It is also appropriate that the Scandinavian Institute of African Studies at Uppsala pays homage to Dr. Lagercrantz' work by publishing (albeit in a much more modest form than his own magnificent series *Studie Ethnographica Upsaliensia!*) a small bibliography of his work.

The Institute has been allowed to draw on Dr. Lagercrantz' impressive knowledge of things African since its foundation in 1962. More important, however, is the fact that he has created a milieu of research and teaching on African problems and African culture in the University of Uppsala, which incidentally was one of the reasons for setting up this Institute in Uppsala. We are grateful for his support and his continuing interest.

The list has been compiled by Dr. Anna-Britta Wallenius, Librarian of the Institute.
